SUMMARY

With seven years of experience as an innovative full-stack developer, I am a proven expert in crafting pixel-perfect, customer-centric websites and UIs. My proficiency extends to architecting and deploying robust, secure APIs and server-side applications that form the backbone of high-performance digital ecosystems. My mastery in web design and user experience sets the foundation for unparalleled digital experiences. I adhere to the highest industry standards, incorporating best practices to create seamless, intuitive interfaces that leave a lasting impression.

SKILLS

I bring a unique set of talents that I believe will significantly enhance any team. Over the years, I've honed my skills in languages like TypeScript and JavaScript, immersing myself in technologies like React and Node.js. This journey has equipped me with a robust foundation, positioning me as an ideal candidate for a senior full-stack developer role

TECHNOLOGY STACK

HTML, CSS, JavaScript, React, TypeScript, Redux, SASS, Express, Nodejs, NextJS, Redis, NestJS.
